

***A new Global Biodiversity Framework and a  
Development Co-operation with increased  
focus on Biodiversity and Ecosystems***

Jan Wärnbäck, Sida

# As it was planned...

# As it might be?

# Increased focus on Biodiversity and Ecosystems

- Sida shall strengthen and deepen the work on biodiversity and ecosystems in the Agency's total operations
- Eight specifications
  - Seeking synergies with other thematic areas and geographical and thematic strategies
  - Addressing the drivers behind degradation of ecosystems and loss of biodiversity
  - Mobilising funding from other actors
  - Identify measures and contributions; Strengthen support to countries/partners working w policy/capacity regarding such measures/contributions; strengthen dialogue
  - Strengthen focus on connections between biodiversity and human rights, democratic principles, social governance, gender- and conflict perspective and protection of Indigenous Peoples rights

**THANK YOU!**
